The Department of Visualization at Texas A&M University in College Station, Texas, invites applications for a full-time non-tenure track position teaching art history and developing art history survey course content to be delivered on-line. The term of appointment is for the Fall 2014 through Spring 2015 academic year.

Responsibilities include teaching one classroom-based and one on-line offering of art history survey courses as well as converting existing course content for on-line delivery. The subject matter includes prehistoric to 14th century, and late 19th through 20th century, respectively. In the classroom these courses are typically taught as large lecture classes that serve undergraduate majors in the Bachelor of Science in Visualization program, the minor in Art, the Minor in Art and Architectural History, and the university core curriculum.

Design of the on-line delivery of these courses includes development of web-delivered interactive 3-D learning environments featuring locations, persons, artifacts and works of the periods covered. Responsibilities for on-line course development include partnership with the development team responsible for creating this environment and coordination between the interactive and non-interactive portions of course content. Minimum qualifications include a terminal degree (Ph.D., MFA, or equivalent) in an area directly related to art history, theory and criticism.

The Department of Visualization’s mission is to advance the art, science and technology of visualization. Academic programs within the department include the M.F.A in Visualization, M.S. in Visualization and B.S. in Visualization, totaling approximately 350 students. The 15 member faculty engages in and supports innovation in teaching, research, and creative works across a wide range of areas where computing can be used to create visual experiences. Experience with the design and delivery of on-line courses is expected.

Our graduates boast strong ties to the animation, visual effects, and game industries. Faculty members are recognized for their scholarly contributions ranging from digitally enabled installations to computational modeling and the psychology of perception and environment. Further information is available at http://viz.arch.tamu.edu/.

Application Deadline is August 15, 2014 or until position is filled. Send letter of application, curriculum vitae and the names and contact information of three references to: Chair, Art History Lecturer Search Committee Department of Visualization, 3137 TAMU, College Station, TX 77843-3137.
